

PARKER SPENT \$68,000  
TO DEVELOP AN INK

... that cleans a pen as it  
writes

We developed QUINK—  
the quick-drying ink, to pro-  
tect Parker Pens from inks  
that clog and gum.

Experts pen repair re-  
cords show that two-thirds of  
the troubles arising in foun-  
tain pens are due to old type  
pen-clogging inks.

We determined to correct  
this abuse at any cost. We  
spent 3 years and made up  
1022 formulas then de-  
veloped QUINK—it con-  
tains a solvent that dissolves  
the sediment left in pens by  
other inks.

## No More Clogged Up Fountain Pens

... due to a new and  
remarkable discovery  
in ink making.

10 Improvements Introduced by

# Parker Quink

... the Quick-Drying Ink

- 1 QUINK contains active particles that feed themselves at a constant rate.
- 2 QUINK does 10% quicker on paper.
- 3 QUINK cleans a pen as it writes—due to a solvent solvent that dissolves the sediment and gum left by other inks.
- 4 QUINK protects pens against the glare of old pen-clogging inks, which are responsible for 40% of the repair service on all fountain pens.
- 5 QUINK color is brilliant and vivid, fast, bold and sure—not weak and watery.
- 6 QUINK's low water rate will save time at any speed.
- 7 Permanent QUINK lasts as long as the paper.
- 8 Washable QUINK is easily removed from fingers and fabrics.
- 9 QUINK keeps a desk penpoint clean when you write, due to a chemical that absorbs moisture instead of releasing it.
- 10 QUINK is the result of 3 years' work in making up 1022 formulas to produce a perfect ink.

Parker Quink—the Quick-Drying Ink

Two Kinds: Permanent—Blue-Black, Green, Red, Violet, Black

Washable: Blue Only

See This Utterly New and Revolutionary Pen!  
**HOLDS TWICE AS MUCH INK**  
 . . . with no increase in size

*First Incessant*

without your pen  
 or nib . . .  
**DEVELOPED BY**  
 PARKER

From a scientist's  
 methodical research—  
 The Vacuum Filler  
 has now to any  
 student or man who  
 uses a fountain pen.

—See how vacuum  
 created pockets that  
 are large.

—See how ink rests  
 in and fills it com-  
 pletely.

—See why this vac-  
 uum pen carries  
 100% more ink  
 than pens of equal  
 size with rubber  
 nibs.

—See the valve,  
 the beauty of its  
 smart, instrument  
 finish—a wholly  
 new, exclusive, and  
 patented style—  
 unobtainable.

—See its unique  
 reversible point  
 that writes two  
 ways—right and  
 regular hand—  
 broad, medium or  
 fine—on the lower side,

—writes clear on the upper  
 side for figures and scrib-  
 bling. This pen is a  
 revolution—of precision  
 platinum and gold, topped  
 with a pellet of clear  
 diamond. Utterly unique,  
 complete, responsive, firm,  
 easily holding.

If you're willing to pay \$7.50,  
 you won't be willing to accept  
 it just any other pen. If you  
 wish to get the best, get a pen with a  
 silver ink jet by making your  
 price to include—but be sure to  
 have the quality as well—my  
 "Water Guard" stops an instant  
 flow. The Parker Pen Company,  
 Jenneville, Pa.

James Vacuum  
 Filler Pen with  
 six platinum  
 plated pens,  
 water guard  
 and 10 pens  
 \$1.25
